# EUROPEEN TORNADO Sept 2024

- ***The AFTOR has worked hard with ENV Saint Pierre de Quiberon France (the birthplace of Olympic preparation for all-support sailing) and the ITA to organize this exceptional event, with the expected participation of many old Tornadists Olympic preparation and Olympic medallists, who will either be on the water with a Tornado, or at the very least for a festive day meeting and exchanges.***
- ***A huge space dedicated to sailing, with everything you need on site - **technical facilities, accommodation and catering** - to enable Tornadists from all over Europe to meet and exchange ideas, at very affordable rates that you won't find anywhere else.***
- *Of course, this event will only be possible with your help, and we're counting on your participation. We have also planned a 2-day preparatory course on site just before the Championship.*
- A communication concerning the organization, prices and reservations will be sent to you in the coming months. Reserve your dates now.
- Sincerely. The AFTOR Office
